

Vision, Goals, and Principles (DRAFT)

3/15/13

Transformation Plan

Section 5: System Purpose

Part 5A: Vision, Goal, and Principles

Vision

Safety, health, and well-being for all individuals, families, and communities in King County

Goal

Use public and private resources efficiently and effectively to achieve better health, better care, and better costs to support individuals and communities in realizing their full potential

Principles

A transformed system of health and human services will . . .

1. Place individuals and families at the center of services that address the whole person/family
2. Strive for individual and family self-sufficiency
3. Create a more fair and just King County, i.e., advance equity
4. Define results that we want to produce – and then measure progress for continual learning and improvement
5. Drive toward the prevention of health and social problems, and support recovery
6. Achieve financial sustainability for the system
